AVATAR PROJECT WELCOMES NEW ADVISORY BOARD MEMBERS

We are delighted to announce the addition of two esteemed members to AVATAR's Advisory Board. Dr. Denis Benasciutti, Associate Professor at Università di Ferrara, brings expertise in structural integrity assessment and the fatigue behavior of materials. Giovanni De Morais, SIMULIA Technology Manager Senior Specialist, enriches our board with his extensive background in product development, structural analysis, and consultancy spanning over twelve years. Their contributions will undoubtedly enhance the project's insights and outcomes. Welcome aboard!

AVATAR PROJECT SUBMITS VIDEO ENTRY FOR COMPETITION

**SUSTAINABILITY
CONFERENCE**
サステナビリティ カンファレンス

The introductory video of our AVATAR project, outlining our project goals, has been submitted for the NTT Group Sustainability Competition 2023. Stay tuned for the public voting phase, where winners will have the opportunity to be invited to Tokyo for recognition and to receive prizes.

TEAM UPDATE AT AVATAR PROJECT

We extend a warm welcome to Henrik Rasmussen, the new Principal Investigator from Nordic Wing, and express our gratitude to Rasmus Bruun Pedersen for his valuable contributions. Wishing both success in their respective roles.
